

Basic Data Exploration

1. SUM

=SUM(D2:D35)

 f_x | =SUM(D2:D35)

	C	D	E	F	G
Name	Brand Name	Price (\$)	Quantity	Category	
	Dell	1000	30	Electronics	SUM
	Nike	80	15	Fashion	10100
iker	Keurig	130	40	Kitchen	
ne	Samsung	900	25	Electronics	

2. COUNT

=COUNTA(D2:D35)

fx =COUNTA(D2:D35)									
	C	D	E	F	G	H	I	J	
Item Name	Brand Name	Price (\$)	Quantity	Category	TASK 1		TASK 2		
	Dell	1000	30	Electronics	SUM	COUNT	AVERAGE	MINIMUM PRICE	MAXIMUM PRICE
Shoes	Nike	80	15	Fashion	10100	34	297	30	
Coffee Maker	Keurig	130	40	Kitchen					
Phone	Samsung	900	25	Electronics					
Backpack	North Face	70	20	Outdoor					
Headphones	Sony	200	45	Electronics					

3. AVERAGE

=AVERAGEA(D2:D35)

TASK 2

MINIMUM PRICE

Finds minimum

=MIN(D2:D35)

MAXIMUM PRICE

Finds maximum

=MAX(D2:D35)

TASK 3

Logical Function – IF PRICE RANGE

=IF(D2>500,"High Price","Standard Price")

4. Conditional Functions – SUMIF and COUNTIF

=SUMIF(F2:F35,"Electronics",D2:D35)

=COUNTIF(D2:D35,"<100")

5. Text Formatting – LEFT, RIGHT, MID

DAY	COUNTRY CODE	MONTH
-----	-----------------	-------

=LEFT(A2,2)

=RIGHT(A2,2)

=MID(A2,4,3)
